## Test your knowledge on caveats and limitations to data

GESAMTPUNKTZAHL 3

1. What is the technique that data analysts use to help them anticipate the questions a stakeholder might have during a Q&A?

1 / 1 Punkten

- ☐ Limitation test
- ☐ Stakeholder brainstorm
- ☐ Practice swing
- ☒ Colleague test

✓ Richtig

A colleague test is an effective way to anticipate questions a stakeholder might have during a Q&A.

2. You present to your stakeholders, and they express concern about how your results compare to previous results. Which kind of objection are they making?

1 / 1 Punkten

- ☐ Data
- ☒ Findings
- ☐ Presentation skills
- ☐ Analysis

✓ Richtig

This stakeholder is making an objection about your findings.

3. After your presentation, a stakeholder is concerned about whether your data comes from a reputable source. In what ways should you respond? Select all that apply.

0,75 / 1 Punkten

- ☐ Question why the stakeholder is concerned
- ☒ Take steps to investigate the source further

✓ Richtig

When you receive an objection with merit, the best way to respond is by acknowledging its validity. Then, follow up with details and promise to investigate the matter further.

- ☐ Acknowledge that the objection is valid
- ☒ Follow up with details about the source

✓ Richtig

When you receive an objection with merit, the best way to respond is by acknowledging its validity. Then, follow up with details and promise to investigate the matter further.
