Test your knowledge on balancing team and stakeholder needs

GESAMTPUNKTZAHL 3

1. As a data analyst, it's important to communicate often. Sharing detailed notes, creating reports, and using a changelog are [1 / 1 Punkten] all ways to communicate with the people who have invested time and resources in a project. Who are these people?

   ○ Subject-matter experts

   ○ Customer-facing team

   ◉ Stakeholders

   ○ Executives

   > ✓ **Richtig**
   > Stakeholders invest time and resources into a project. Sharing detailed notes, creating reports, and using a changelog are all useful ways to keep them up-to-date.

2. The customer-facing team does which of the following activities? Select all that apply. [1 / 1 Punkten]

   ☐ Provide operational leadership for the company

   ☑ Compile information about customer expectations

   > ✓ **Richtig**
   > The customer-facing team compiles information, shares feedback, and sets expectations.

   ☐ Tell the data story to others

   ☑ Share customer feedback

   > ✓ **Richtig**
   > The customer-facing team compiles information, shares feedback, and sets expectations.

3. The human resources director approaches a data analyst to propose a new data analysis project. The analyst has a lot of [1 / 1 Punkten] experience in human resources and believes the director is taking the wrong approach, and it will lead to some problems. Select the data analyst's best course of action.

   ○ Politely explain that they're too busy to take on another project at this time.

   ○ Tell the director that they're very sorry, but they can't work on the project.

   ○ Complete the project as requested, but set aside some time in the future to fix the problems that are sure to come up.

   ◉ Respectfully explain their viewpoints and offer the director some additional information to help improve the project.

   > ✓ **Richtig**
   > The analyst should respectfully explain their viewpoints and offer the director some additional information to help improve the project.
