Test your knowledge on sorting and filtering

GESAMTPUNKTZAHL 5

1. What is the process for arranging data into a meaningful order to make it easier to understand, analyze, and visualize? `1 / 1 Punkten`

   ○ Reframing

   ○ Prioritizing

   ○ Filtering

   ◉ Sorting

   > ✓ **Richtig**
   > Sorting is the process for arranging data into a meaningful order to make it easier to understand, analyze, and visualize.

2. Filtering by a particular criteria is an effective way to narrow the scope of a query. However, filtering is time-intensive because it can only be done one variable at a time. `1 / 1 Punkten`

   ○ True

   ◉ False

   > ✓ **Richtig**
   > Filtering can be done by single variable or multiple variables, depending on the query's criteria.

3. A data analyst is reviewing a national database of real estate sales. They are only interested in sales of condominiums. How can the analyst narrow their scope? `1 / 1 Punkten`

   ○ Filter out condominium sales

   ○ Sort by non-condominium sales

   ◉ Filter out non-condominium sales

   ○ Sort by condominium sales

   > ✓ **Richtig**
   > The analyst can narrow their scope by filtering out non-condominium sales. This will enable them to view only the data on condominium sales.

4. A data analyst works for a rental car company. They have a spreadsheet that lists car ID numbers and the dates cars were returned. How can they sort the spreadsheet to find the most recently returned cars? `1 / 1 Punkten`

   ○ By return date, in ascending order

   ○ By car numerical ID, in ascending order

   ○ By car numerical ID, in descending order

   ◉ By return date, in descending order

   > ✓ **Richtig**
   > To sort the spreadsheet to quickly find the most recently returned cars, they should sort by return date, in descending order.

5. Fill in the blank: To keep a header row at the top of a spreadsheet, highlight the row and select _____ from the View menu. `0 / 1 Punkten`

   ○ Set

   ◉ Pin

   ○ Lock

   ○ Freeze

   > ! **Falsch**
   > To keep a header row at the top of a spreadsheet, highlight the row and select freeze from the View menu.
