Test your knowledge about documentation and reports

GESAMTPUNKTZAHL 5

1. R Markdown allows you to create a record of the steps you took to complete your analysis directly in RStudio.
   1 / 1 Punkt
   - ⦿ True
   - ◯ False

   > ✓ **Richtig**
   > R Markdown is a file format for making dynamic documents with R. It allows you to create a record of your analysis and conclusions in a document while working in RStudio.

2. Fill in the blank: Markdown is a _____ for formatting plain text files.
   1 / 1 Punkt
   - ◯ coding language
   - ◯ file application
   - ◯ guide
   - ⦿ syntax

   > ✓ **Richtig**
   > Markdown is a syntax for formatting plain text files.

3. A data analyst creates an interactive version of their R Markdown document to share with other users that allows them to execute code the analyst wrote. What did they create?
   1 / 1 Punkt
   - ⦿ An R notebook
   - ◯ A markdown
   - ◯ An HTML report
   - ◯ A code chunk

   > ✓ **Richtig**
   > They created an R notebook, which is an interactive R Markdown option. It lets users run code from the R Markdown document and displays charts and graphs to visualize that code.

4. A data analyst wants to convert their R Markdown file into another format. What are their options? Select all that apply.
   0.5 / 1 Punkt
   - ☐ Dashboard
   - ☑ Slide presentation

   > ✓ **Richtig**
   > R Markdown files can be converted into HTML, PDF and Word, slideshow presentations, or dashboards.

   - ☑ HTML, PDF, and Word

   > ✓ **Richtig**
   > R Markdown files can be converted into HTML, PDF and Word, slideshow presentations, or dashboards.

   - ☑ JPEG, PNG, and GIF

   > ✗ **Diese Antwort sollte nicht ausgewählt werden**
   > R Markdown files can be converted into HTML, PDF and Word, slideshow presentations, or dashboards. They usually can't be converted to image files.

5. A data analyst has finished editing their R Markdown file and wants to save it as an HTML report. What tool will they use?
   1 / 1 Punkt
   - ◯ Hashtags
   - ◯ Output
   - ⦿ Knit
   - ◯ Save

   > ✓ **Richtig**
   > The knit button will produce a report containing all text, code, and results from the R Markdown file.
